Cabinet approves ₹1-trillion scheme for grain storage

PRESS TRUST OF INDIA
New Delhi, May 31

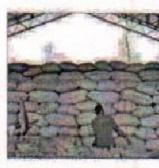

THE UNION CABINET on Wednesday approved a ₹1 trillion programme to create the world's largest grain storage capacity in the cooperative sector to reduce crop damages and prevent distress sales by farmers, besides strengthening the country's food security.

The government is planning to create 70 million tonnes of grain storage capacity in the cooperative sector over the next five years and said the move will also help in creating job opportunities in rural areas.

Cooperation Minister Amit Shah described the Cabinet approval as a "visionary decision" which will lay the foundation of a progressive, self-reliant and food grains-rich India.

"Lack of agricultural storage capacity leads to wastage of food grains and farmers are forced to sell their crops at low prices," he said.

With this decision, Shah

said farmers will get modern grain storage facilities in their blocks through Primary Agricultural Credit Societies (PACS) so that they will be able to get fair prices for their grains.

Briefing media, Information and Broadcasting Minister Anurag Thakur said the Cabinet has approved the "world's largest grain storage plan in the cooperative sector".

In investment, the programme will start "with an expenditure of around ₹1 trillion".

As per the plan, a godown of 2,000 tonnes capacity will be established in each block. This will help in strengthening the

cooperative sector, as PACS can diversify into the storage of food grains. There are 1 lakh PACS in the country, out of which around 63,000 are functional.

Thakur said the country's foodgrains production is around 310 million tonne, while the storage capacity is only 47% of the total output. In developed economies, he said, the storage capacities are higher than output.

Cabinet okays CITTIS 2.0

The Union government on Wednesday approved the City Investments to Innovate, Integrate and Sustain (CITTIS) 2.0 programme that seeks to support projects promoting a circular economy with a focus on integrated waste management at the city level, said Information and Broadcasting Minister Anurag Thakur.

Asked about the source of funding, Thakur said the funds available in ministries of agriculture, food processing and food and consumer affairs would be utilised.

MeitY pilot project on electronics repair services

The project has been identified as a game-changer for India and has been supported by the Government to make India a world leader in a hitherto untapped domain, an official statement said on Wednesday.

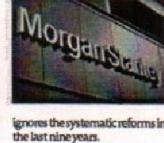

The government launched the ERSO Pilot Initiative today to validate certain transformational policy and process changes to make India the repair capital of the world, the statement said. —PTI

India transformed in less than a decade, says Morgan Stanley

PRESS TRUST OF INDIA
New Delhi, May 31

INDIA, UNDER PRIME Minister Narendra Modi, has transformed, gaining a position in the world order and becoming a key driver for Asia and global growth, said Morgan Stanley.

In a report, the global brokerage said that significant scepticism about India, particularly with overseas investors, ignores the significant changes that have taken place in India, especially since 2014. Rejecting criticism that India has not delivered its potential [despite it being the second-fastest-growing economy and among the top-performing stock markets over the past 25 years] and that equity valuations are too rich, saying such a view

ignores the systematic reforms in the last nine years.

"This India is different from what it was in 2013. In a short span of 10 years, India has gained positions in the world order with significant positive consequences for the macro and market outlook," it said. "India has transformed in less than a decade." Listing the 10 big changes that have happened since Prime Minister Narendra Modi took office in 2014, the

brokerage said bringing corporate tax at par with peers and infrastructure investment picking pace are one of the biggest supply-side policy reforms.

Also, the rising collection of GST — the uniform tax that replaced more than a dozen different central and state taxes — and the rising share of digital transactions as a percentage of GDP indicate the formalisation of the economy.

Transfer of subsidies to accounts of beneficiaries, insolvency and bankruptcy code, flexible inflation targeting, focus on FDI, government support for corporate reforms, a new law for real estate sector and MNC sentiment at multi-year highs were other significant changes, it said.
